High Quality Structures

**HANDCRAFTED WITH ATTENTION
TO FINE DETAILS**

All our sheds are built to widths of 8' - 10' - 12' - or 14'.

All floors come with pressure-treated floor joists to ensure longevity.

Due to hauling and handling of sheds, we do not offer rain gutters.

However, we do highly recommend having gutters installed by local spouting professionals.

Double-Wide Garage

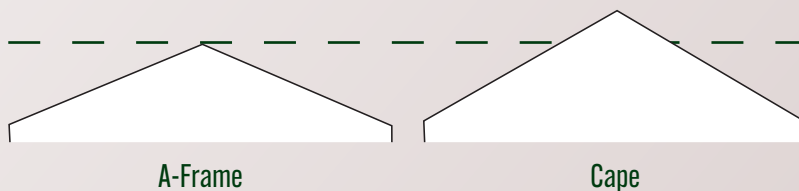

A Very Unique and Popular Style

Comes in wood painted siding or vinyl siding and is available in different wall heights.

What is the difference between an a-frame and a cape?

A cape roof will have a roof peak that is raised by a few inches, giving it a more unique look outside, while giving you more space inside for lofts and storage.
